

Quality Statement

Quality Management

McCarthy Marland is committed to providing high quality services and products, effective project management and outstanding customer service,

The proposed waste management services will be delivered to meet and where appropriate exceed the tender specifications. This includes ensuring that we meet and exceed all relevant industry-specific regulations and standards.

McCarthy Marland operates a quality management system (QMS) to ensure we deliver consistent high-quality services. Details of our quality management processes and procedures are available on request.

Alex Marland (Director) will take responsibility for ensuring effective quality management throughout the Company - more details are given under 'Key Personnel' below.

Health, Safety and Security

McCarthy Marland recognises the importance of health, safety and security throughout all of our services. The Company's health and safety policy sets out our commitment

and outlines our approach to effective health and safety management. Our processes and procedures are designed not simply to meet legal requirements but to effectively

deliver a healthy, safe and secure working environment for our employees and everyone else who might be affected by our work.

Our waste management services have been signed to meet all relevant safety and security standards.

A copy of our Health, Safety and Environmental Policy is available.

McCarthy Marland has employer's liability of £10 million and public and products liability insurance of £5 million each. A copy of our insurance documentation is available.

Equality

We recognise the contribution our employees make to the success of what we do. We are committed to offering our employees fair terms and conditions, ensuring they have the skills

and qualifications they need, and providing opportunities for training and development.

McCarthy Marland is an equal opportunities employer. A copy of our equal opportunities policy is available.

As part of our broader commitment to equal opportunities, we ensure that our services are designed to be accessible and meet all relevant industry standards.

Sustainability

McCarthy Marland understands the importance of sustainability - in design, delivery and in continuing operation, this is reflected in how we:

- Source the machinery and plant we operate
- Operate all of our plant and machinery
- Use ethical suppliers wherever possible

We have implemented an environmental management system. Details of our environmental management policy, processes and procedures are available.

In particular, we ensure that the standard of our services meets all relevant environmental standards.

Key Personnel, Experience and References

Alex Marland - Financial, Commercial Director

Alex is a proactive initiative-taker who solves problems and makes things happen. A versatile and practical person who leads from the front, he has a long-term experience

of managing people and building business systems that deliver sustainability and positive results.

He has developed his expertise over 20 years working at a senior level in the waste industry and has become a specialist in technology application.

In that time, he has also successfully led teams in operations, sales, business development schemes, contract bid and project finance initiatives.

He has confidently navigated within the complexities of EU policy, central government initiative and procurement practices, both public and private,

to create value for the organisation for whom he has worked. His track record has earned him extensive business contacts and an enviable reputation within the industry.

Kevin McCarthy - Operational Director

Kevin is a practical individual with wide ranging capabilities across all aspects of waste management operations.

He has led extensive teams of operational staff

and managed safe working practices throughout his career. Kevin has developed his experience over 20 years of working in the waste industry and is an expert in the application

of plant and machinery as well as managing teams of operational staff.

Julian Appleby – Operations Director

With decades of experience in the Waste Recycling industry, Julian will be managing all things operational to improve processes and procedures of the business on a day-to-day level with a strong view on compliance and Health and Safety, we are excited for the year ahead and the improvements Julian has already put in place.
