This introductory note does not form a part of the notice

Under the Environmental Permitting (England & Wales) Regulations 2016 (schedule 5, part 1, paragraph 19) a variation may comprise a consolidated permit reflecting the variations and a notice specifying the variations included in that consolidated permit.

Schedule 1 of the notice specifies the conditions that have been varied and schedule 2 comprises a consolidated permit which reflects the variations being made. All the conditions of the permit have been varied and are subject to the right of appeal.

This is an application to vary the Standard Rules SR2008 No3 (75kte household, commercial and industrial waste transfer station with treatment) to a bespoke permit. Also to make the below changes:

- To increase the annual throughput from less than 75,000 tonnes to less than 100,000 tonnes per annum.
- To include 19 12 12 waste code in the permit and to authorise the site to store this waste externally.
- To authorise the site to store green, wood and plastic waste externally, the relevant waste codes are: 19 12 04, 19 12 07, 19 12 12 and 20 02 01.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
